

To: Whomever it may concern
Date: Sunday, October 31, 2004

I have been a member and supporter of K-Love for over a year and a half. K-Love is an investment to our community and a ministry willed by God for the purpose of leading others to a personal relationship with Jesus Christ. This is a very important facet to our human existence, especially with what is going on in this world we live in.

After struggling many years with bouts of depression, anxiety and family issues, I surrendered my heart and life to Jesus Christ in April of 2002. I was also present in NY during the September 11th terrorist attacks. This event left scars in me that I never thought would be removed.

After finding K-Love ministry, It has helped me immensely in my quest and journey to develop in Jesus. The music is so powerful and God inspiring. I know God is working a divine purpose in all the functions of this station. It would certainly be a travesty to take K-Love off the air.

Our airways are filled with gross examples of what people call popular releases. Many radio stations are playing rap music that supports violence, sex and drugs. Listening to such music can traumatize a young person's life. Years ago, growing up as a teen ager in NY, I witnessed many fellow classmates turn to drugs, sex and alcohol abuse, due in large quantity to a lack of christian influence and direction. K-Love was developed in large part for our children to have an option and opportunity to step onto the other side of life, the side of Jesus Christ.

This country is quick to emphasize reality tv, explicit and negative music, banning the ten commandments and removing the pledge "under God" from our schools. We are taking away from the REAL meaning and purpose that God has set in place for our lifelong development! A decision needs to be made to ban this junk from our society so that our children can grow up in an environment suitable by God, for their benefit in making this world a better place to live in.

Our plan in this life is to seek a fellowship and personal relationship with Jesus Christ, going out and spreading the good news, loving and serving others and setting an example for God's kingdom. K-Love is at the central mark of this activity! There are hundreds of thousands of listener's through our blessed nation and the number is growing dramatically as we are moving into a critical part of the last days before the second coming of Christ.

K-Love is not just a radio station, it is a ministry! The money we pledge per month goes to support the ministry staff which is called to help thousands of people, some of which are suicidal and helpless, seek a relationship with Jesus. Over 8,000 individuals have come to a relationship with Christ over the past couple years, and the number is growing daily. The ministry works day and night, dedicated to helping tohers, some of which are helpless.

Now which is more important, radio popularity with explicit content, or helping save lives through God inspired music and pivotal christian ministry?

I am very thankful to be able to write this on K-Love's behalf. As a 40 dollar a month pledge supporter, it means much more to me to make a difference and speak the truth.

Very respectfully yours,

Ken Widelski
